

PhD in the field of DNA sensors and immunosensors based on nanomaterials

We are looking for a PhD candidate to work in the field of the development of novel DNA sensors and immunosensors based on nanomaterials.

A scholarship will be granted to the chosen candidate by the Catalan Institute of Nanotechnology (ICN, Barcelona, Spain), to work at the Nanobioelectronics & Biosensors Group. It will be for one year with the possibility to be extended depending on the financial resources.

A motivated candidate, preferably with experience in the field of biosensors and nanomaterials and a high level of English, both spoken and written, is required.

The candidate should send, before Febr. 25, 2008, a cover letter with his CV to: arben.merkoci.icn@uab.es
